January 13, 2022 | SPECIAL MESSAGE

NEW Vaccine Management Application in Workday – Live January 18

Beginning January 18, Texas A&M and Texas A&M Health employees will see a new icon on the Workday home page called Vaccine Management. Employees can use this application to voluntarily submit their vaccination status or, if necessary, make a request for exemption/accommodation. This new Workday application was implemented by The Texas A&M University System in response to Executive Order 14202 (federal contractor vaccination mandate). Although this federal contractor mandate is on hold due to nationwide preliminary injunction, the Vaccine Management application in Workday will be launched and made available for voluntary use.

A job aid on how to use the application in Workday is available online. (Log in using your SSO credentials).

Additional information regarding the nationwide preliminary injunction will be communicated to employees when the status of the injunction changes. In the meantime, questions regarding Vaccine Management may be directed to Employee-Relations@tamu.edu.

QUESTIONS? HRnetwork@tamu.edu | 979.862.3854 | 979.845.4141 | Who to Contact in HROE?

The HR Liaison Network comprises approximately 300 employees who have been designated by their department head to perform HR functions within the department. As partners of the Human Resources organization, HR Liaisons play an important role — from creating a welcoming environment for new hires to maintaining workplace unity while supporting employees and management.
