Employee Flu Vaccine Clinics

No cost! No appointment needed!

The Division of Human Resources and Organizational Effectiveness has partnered with the Texas A&M Health Community Clinic, the colleges of medicine, nursing, and pharmacy, and the Health Science Center’s Office of Interprofessional Education & Research to offer flu vaccine clinics for local Texas A&M System employees, their eligible dependents (must be 6 months or older), and retirees who are covered under A&M Care or AHP Care (Blue Cross Blue Shield of Texas). Outside insurance will not be accepted at the on-site flu vaccine clinics.

Vaccines available this year are quadrivalent, covering two influenza A viruses and two influenza B strains. Additionally, we will offer pediatric doses and a limited number of high-dose and egg-free vaccines.
